# **DASHER**

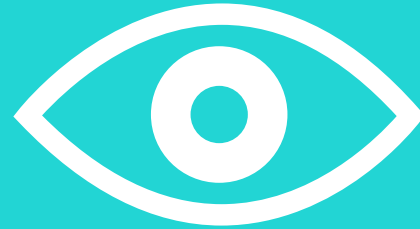

writing fast without a  
keyboard

**DOWNLOAD  
FOR FREE**

The software is an open source program. This means Dasher is constantly upgraded by a community of users. To use it simply download Dasher for free. To use it you simply need an electronic with basic functions. Works well with mouse, head tracking, eye tracking and switches. It may depend on what you need

**THE FAST TEXT ENTRY  
INTERFACE FOR  
PEOPLE WHO CAN'T  
USE ORDINARY  
KEYBOARD AND TOUCH  
SCREEN WITH  
PRECISION AND CAN'T  
SPEAK CLEAR ENOUGH  
TO USE SPEECH  
RECOGNITION.**

## WHY DASHER?

**01**

### **fast to communicate**

The eyetracking version of Dasher allows an experienced user to write text as fast as normal handwriting (39 words per minute)

**02**

### **in any language**

Polish? Japanese? Chinese? No problem! We also encourage you to personalize Dasher by supplying a training file written in your own style.

**03**

### **easy to learn**

Dasher is a zooming interface. You choose what you write by choosing where to zoom. It's designed with understanding for people with disabilities, by people with the same disability.
